

## **Act like a Leader Series**

Short 1-2 hour workshops focused on three specific applications of our leader persona method: improving communications, team building, and developing leadership skills. See our [Youtube channel](#) for more information.

**Speak Their Minds** - Our simple method of adopting personas to voice opinions and conduct difficult conversations in a detached, fun and easy manner.

**Play for Performance** - Our fun and intuitive way of assessing the personalities on your team, improving conversations, incorporating missing perspectives, and building relationships.

**Leading from Examples** - Our novel, more intuitive approach to learning new skills and developing effective leaders that uses imitation of successful leaders to learn how they do what they do.
